

## **SkillsUSA North Dakota Teamworks Competition Individual and Team Tool Lists**

### **Purpose:**

- The purpose of this event is designed to evaluate members of teams involved in the building of a structure.
- This state event will include Carpentry, Electrical and Plumbing fundamentals.
- There is NO MASONRY component.

### **Clothing Requirement:**

There is NO "official" competition clothing for this state event however all competitors should wear clothing appropriate for the tasks involved to build this structure. Tasks include the duties of a Carpenter, Electrician and Plumbing professional activities. Other guidelines for appropriate attire include:

- All competitors will receive and be identified by a number only, after Sunday afternoon orientation.
- No logos, lettering or identifying symbols on clothing are allowed.
- Work boots are required (can be either steel toe or not).
- Hard hats and Safety Glasses will be worn through the entire build and tear down. Gloves are recommended for tear down.
- No shorts, cut-off jeans or sleeveless shirts.

Violations of any of the above guidelines could result in a penalty deduction.

### **ALL COMPETITORS WILL SHOW Proof of:**

- **OSHA 10 Ten Certification – Check During Orientation**
  - Bring your OSHA 10 card or Certificate to the orientation on Sunday.
  - Working in a Safe manner and adhering to common construction site safety will be maintained. If an unsafe act is perceived judges and/or Technical Chair will intervene to determine appropriate action.

### **Orientation**
