Start time Monday April 20th

- **Secondary: 8:00 am**
- **Post – Secondary: 8:00 am**

Lunch

Box Lunches will be delivered to the contest location

Knowledge Exam

The Automotive Technology Knowledge exam is available through the NOCTI Exam Hub. Exams must be taken before Skilled Competitions.

Clothing Requirement

We will be following the guidelines from the technical standards, except that we will NOT be requiring Official SkillsUSA blues. Contestants will still need to dress appropriately for a shop environment, no loose clothing, no jewelry, no shorts, nothing loose that could become a safety hazard. They will need appropriate work boots/shoes for a shop environment. Safety glasses are an absolute must, and contestants will not be allowed to compete without them.

Additional Updates

In the past, students have been able to bring their own multi-meter to the contest, however this is not required. They can still bring their own meter, but will have to show technical chairperson for approval.
